

Before/After School Remediation Schedule

One of our main points of emphasis this year is promoting our remediation program. Our teachers are more than willing to work before and after school to give our students the best opportunity to succeed in the classroom and on SOL tests. We strongly encourage any and all of our students to take advantage of before and after school remediation. We also have school-day remediation during our teachers' duty blocks, and we'll do our best to get students who need a little extra help with their teachers during school wherever schedules permit.
